TUBU's IP66 LED Clean High Bay G4 is an ideal solution for lighting cold storage and food processing environments.

High visibility and well-distributed lighting is required in all food processing facilities. Very few industries, if any, have more stringent lighting requirements than food and beverage processing industry. The main challenge is that food and beverage processing operations must have luminaires that can withstand the daily wash downs required to prevent bacteria growth or harborage of other contaminants. Our G4 high bay is designed to meet all those requirements.

## Features

- Smooth surface, easy to clean and wash
- High Output LED's, up to 130lm/W, Samsung LEDs used
- High CRI >85
- Beam angle: 120°
- Ambient Temperatures: -40° C to 50° C
- Meanwell brand driver ,TUV UL CE certificate, PF>0.96, THD<12
- Flicker free
- Environmentally friendly, no mercury, No UV, No IR
- IP66 rated, perfect for wet and damp environments
- Energy Efficiency Grade: A+
- Quick Start instant 100% luminous flux
- 5 Year Warranty on complete fixture. (LED's, Driver, & Housing)
- Certificate: CE, RoHS, ETL, cETL, DLC pending
- 1-10V Dimming, MW Sensor, DALI Control Options

## Applications
